HONGKONG, TUESDAY, MARCH 29, 1904.

THE LICENSING OF PILOTS.

The Pilots Ordinance, which the Hon. L. A. W. Barnes Laurence introduced for the consideration of the Legislative Council yesterday afternoon, is undoubtedly the outcome of repeated representations made to the Government in the interests of shipping. The Chamber of Commerce has frequently had the question under consideration and, in 1902, they were approached by the Hongkong and Kowloon Wharf and Godown Co., Ltd., with the object of inducing the Government to oblige pilots to register themselves with, and prove their qualifications before, a Board having the requisite authority from the Government to act. Accordingly, the matter was brought forward, stress being laid on the fact that the pilots of to-day are of inferior calibre to their predecessors, and that there was a growing tendency amongst them to disregard and wilfully ignore ordinary precautions necessary, not only for the safety of the vessels in their charge whilst under way in narrow waters, but of others either at anchor or at the wharves. We find that, at the request of the Government, a scheme for holding Government examinations and granting certificates was drawn up by a special sub-committee, comprising Messrs. E. A. Hewett, A. Haupt, and W. Poate. Their recommendation was adopted by the Chamber and submitted to Government, who replied to the effect that it would place the Harbour Master in an entirely false position if he had to give certificates for qualification which he could not test. To this the Committee replied that at home and other Asiatic ports this was satisfactorily managed, and that, if necessary, the licensing board need not be entirely composed of Government officials but might be supplemented by outside experts. It was pointed out that, whilst there was a demand for pilotage on the harbour, the Committee were against the institution of compulsory pilotage, also that the granting or refusing to grant a certificate as suggested by the Government could not be acted on by private individual without pecuniary responsibility to which the Government would not be liable. The scheme, which had the support of the chief shipping firms and agencies in Hongkong, did not meet with the Government approval, and the matter was allowed to remain in abeyance until the end of the year when further facts were brought to their notice. These appear to have brought about the desired effect, and the Bill read for the first time at yesterday's Council meeting should fall in with the views not only of the Chamber but of shipmasters and owners. Generally speaking, the Ordinance, while establishing a properly constituted pilot service safeguards the service being one of option to the employers, and in this respect will undoubtedly meet with the general approval of all parties concerned.

LOCAL AND GENERAL.

A FATAL case of cholera and two of small-pox are notified as having occurred in the Colony during the past week.

H.E. the Officer Administering the Government has proclaimed Tainan-fo and Anping, in Formosa, as infected ports.

LIEUT.-COL. NODZU, formerly Japanese Military Attaché at Seoul, has been appointed military adviser to Corea for a term of five years.

THE Hon. Treasurer of the Alice Memorial and Netherlands Hospitals begs to acknowledge with thanks the following donation to the funds of the Hospitals:—
E. Ling \$5

CAPT. IN REE, for many years in command of the *Ching Hai* at the Singapore-Manila run and now master of the *Hong Kong* on the Singapore-Java run, has been promoted to be Inspector at Bangkok for the Norddeutscher Lloyd.

THE other day there was a collision in the harbour between the King Edward Hotel launch and a Cosmopolitan dock launch. The matter was investigated this morning by the Hon. Barnes Laurence who found that the captain in charge of the latter was to blame suspended his certificate.

THE M. B. K. has chartered the Norwegian steamer *Labor* for its trade between Hokkaido and Yabu. The T.K.K. has purchased the British steamer *Strathgyle* and renamed her the *Anchoria Alura*. A Dutch steamer of 2,330 tons has also been transferred to a Japanese owner and renamed the *Nichiyu Maru*.

THE port of Swatow grows daily, says the *N. C. D. News* correspondent. At the back of the town, land is being reclaimed in great patches and soon will be covered with shops and factories. Then will come the railway, and Swatow cannot fail to develop a distributing trade second to none of the coast ports outside of Shanghai.

According to Reuters' Tokio correspondent, the British Minister there refuses to endorse the application made by Mr. Hales, the *Daily News* correspondent, to accompany the Japanese army. The ground for the refusal is that Mr. Hales's reports from the "Tianwan" were slanderous to the British army. The Japanese Government requires the Minister's endorsement to such applications from all correspondents. Mr. Hales was therefore excluded.

A MEETING of the Justices of the Peace was held at the Magistracy this afternoon for the purpose of considering applications from Messrs. Fred. Nolte, Frederick Bishop and Frederick Huber for adjutant licenses to sell and retail intoxicating liquors at the Hotel America, the Connaught Hotel and 2, Wong-nan-ong Road, respectively. There were present Messrs. T. Sercombe Smith, H. H. J. Compertz, J. H. Kemp, E. R. Hallifax, P. W. Sargeant, A. Shelton Hooper, C. D. Melbourne, A. Rumjahn, and W. H. T. Davies. The first application was granted, the second was adjourned for a week, and the third was refused.

A BANGKOK telegram to the *Straits Times* announces the appointment of Mr. W. J. F. Williamson as Financial Adviser to the Siam Government, to succeed Mr. Rivett Carnac. Mr. W. J. F. Williamson has already proved his capacity for the post of Financial Adviser to Siam. When the gold standard had been established in Siam by Mr. Rivett Carnac, and that gentleman went home, Mr. Williamson, who until that time had been in charge of the Currency Note Department, assumed control of the Financial Department. It was he who issued the last report on the financial position of Siam, a compendium of information which gained him a high credit. Mr. Williamson is, of course, an Indian Civil Officer, lent by the British Government.

Before presenting the prizes Sir W. M. Goodman addressed the boys and said that, he appreciated the honour that had been done him and expressed his pleasure at being present. When he was a young man he had often heard it said that, "all work and no play made jack a dull boy," unfortunately he had more than his share of work and little time afforded him to take exercise. He was happy to recognise that things had considerably changed since then and he was able to see, by the splendid performances that had been witnessed, that the rising generation profited by every occasion to improve its muscular as well as its mental powers. He had no intention of making a speech as he was sure the competitors were anxious to receive their prizes, so that he would not detain the boys any longer.
The presentation over, three hearty cheers and a tiger were given for the Chief Justice and an enjoyable function was brought to a close.

Thanks are due to the members of the Committee, the Hon. Treasurer, Mr. A. W. Grant and the Hon. Secretaries, Messrs. W. R. Seymour and R. Y. Birbeck, for the successful organisation of the sports.
We are requested by the members of the Committee of the Hongkong Schools Athletic Sports to express their thanks to those who kindly contributed towards the prizes.

A SHAM FIGHT.

Last night and early this morning all the corps in the garrison took part in a series of military manoeuvres. The thesis of the operations was that an enemy, having succeeded in landing at a point on the southern shore of the island, was advancing to capture Victoria. A detachment of the Hongkong Volunteers, under command of Major Pritchard, was in the ranks of the defenders, its position in the line being at Middle Gap. From this site our citizen soldiers rained a storm of imaginary shells from a section of 15th field guns, on the daring invader, represented by the 114th Malakatta L.I. The operations terminated about 5.30 a.m. The decision of the umpires has not transpired.

THE WAR.

LONDON, 27th March.

News from St. Petersburg says that the troops between the Yalu and Ping Yang have been compelled to retire on their entrenchments on the south bank of the Yalu, before the first Japanese Army of 40,000 men whose advance guard, with artillery, has occupied and fortified a forty-five mile line extending from Kusan to Anju, Yeng Pieng and Pek-chin. Any further advance is improbable until the streams are clear of ice as the retreating Russians have destroyed the bridges over five rivers on the road to Wiju.

LATER.

A St. Petersburg telegram states that a fresh attempt made on Saturday night to block the entrance and the inner roadstead of Port Arthur with fireships, was repulsed.

General Kuropatkin, has proceeded to Moukden.

Admiral Marakoff telegraphs to the Tsar:—"I left Port Arthur on the 26th instant with battleships, cruisers and destroyers to make a reconnaissance of the adjacent islands."

A proclamation from the Commandant of Vladivostok urges the inhabitants to remain; but only those will be allowed to stay who possess a specified amount of cereals calculated to be sufficient to last for eight months. The Banks are closed and no money is circulating.

Warden of the Cinque Ports.

It is officially announced that Lord Curzon has been appointed Warden of the Cinque Ports.

THE SMUGGLING OF ARMS AT SWATOW.

The authorities are exercising a needful supervision with regard to the import of arms. The Triad Society flourishes inland from here, and its members obtain all the arms they can pay for, and of the most recent makes. How they are introduced is a secret possibly undiscovered by the officials, but known to the man in the street. Fishing junks and small trading vessels bring them up the coast and land them in out-of-the-way places; so that increased vigilance on the rivers which fall into the Swatow estuary will fail to discover any but the smallest fraction of the arms imported. The great need just now is of a couple of well-armed gunboats for patrol duty between here and Hongkong.—N. C. D. News.

PORT ARTHUR.

A SYMPATHETIC VIEW.

There is staying in Shanghai a gentleman who has considerable interests in Port Arthur, where he has resided for the last three years, who left there with his wife and family rather more than a fortnight ago, and who as late information about the real condition of the port as anyone. In an interview, which he courteously accorded a representative of this paper yesterday, the gentleman stated at the beginning that, though a Britisher, he had many Russian friends and that his sympathies were with the Russians in the war. He added the belief that the Russians would be victorious and possibly in a shorter time than is generally thought.

Port Arthur itself has suffered, he says, comparatively little from the successive bombardments. This is partly due to the fact that a large percentage of the shells thrown in by the Japanese fleet have failed to explode. Many of them appear to be armour-piercing shells and require some massive resistance to cause them to explode. In the new town, moreover, the houses are very scattered and at the distance from which the Jap nose have to fire they cannot aim with any certainty; in fact they might go on for months without inflicting any serious damage. This is a natural character of the new town would make a general conflagration highly improbable.

EXAGGERATION.

As regards the fleet again, the injury, in this gentleman's estimation, has been exaggerated. The *Retvizan* was taken well inside the harbour and she will be repaired sufficiently to be able to put to sea in a few months. The other ship are also being repaired, and, as soon as are fit, it is quite likely that an attempt will be made to win back the mastery of the sea. There is ample anchorage in the western basin for the whole of the fleet and except the very largest battleships can be dry-docked in the existing dock. For the *Retvizan* a mud dock is under construction.

It was quite untrue that most of the officers and men were ashore at the opera on the night of the 8th of February. A few of the senior officers were the guests at a name day party in honour of Admiral Stark's wife, but the majority were on duty as usual. The torpedo attack was undoubtedly a surprise.

When the first bombardment began next day, Viceroy Alexieff's first care was to get away the women and children by rail, but his efforts were to some extent frustrated by a number of men, who in the most cowardly way forced themselves in the carriages and who were responsible for much of the panic. Since then the most perfect order has prevailed. The trains have been taking away those who wished or were ordered to leave and have brought in supplies and troops. Communications to the rear in fact have been kept open without hindrance. Our informant was able to get private telegrams on business delivered to him.

JAPAN'S DIFFICULT TASK.

In his view Port Arthur can never be taken by assault, and will not easily be starved out. There are provisions for at least 18 months, and meat, of which alone there is likely to be any scarcity, can be brought in easily from Manchuria by the railway. So complete are the supplies of flour that an American ship in port was allowed to leave with 6,000 bags on board.

On land as on sea, our informant considers the Japanese will have a very difficult task before them. The Russian troops in Manchuria are good fighting material and the railway is bringing out reinforcements with great rapidity. The end of the war will be, he thinks, that the Japanese will be expelled absolutely from Manchuria, and Russian interests will predominate in Corea.

That this should be so, he does not regard in the light of a calamity. It is the Russians who have spent the money in Manchuria and given it prospects of prosperity, while no other Power has troubled itself. As for the trade, the Russians do not seem to care much. Most of it is already in the hands of other nationalities who can carry on their operations as freely under the Russian flag, as under the Stars and Stripes.—N. C. D. News.

PORT ARTHUR BATTERIES.

According to the latest investigation, says the *Tyoko Asahi*, the batteries at Port Arthur are as follows:—

Mao-ti-shan	8 6-in. Canet.
Ki-kwan-shan	5 "
Liao-ti-shan	10 12-in. Canet.
" No. 1 from North	4 6-in. Canet.
" No. 2 "	8 "
" No. 3 "	5 "
" No. 4 "	8 "
Golden Hill	8 12-in. Canet.
" Central	Unknown 6-in. Canet.
Poh-ti-shan	5 "
" No. 1 from East	5 "
" No. 2 "	5 "
" No. 3 "	8 "

Disappearing guns exist in the batteries on Liaotishan, Poh-ti-shan, Kinkishan, Liao-hu-wi, etc. Besides the above, there are batteries on 'Rh-chung shan, etc. A few are still under construction or projected.

VICEROY ALEXIEFF AND THE CHINESE.

A PROCLAMATION.

At the end of February Viceroy Alexieff caused a proclamation to be issued throughout Manchuria notifying the Chinese that Russia is at war with Japan on account of Japan's "treacherous attack on the Russian fleet." This proclamation is under six headings.

The first warns the inhabitants that they must prevent the encroachment of Chinese on "Russian territory."

Second—Russian and Chinese interests are declared to be identical, but as China says she

wishes to maintain neutrality, therefore all officials in Manchuria, instead of hindering, must assist the Russian army.

Third—The people shall continue their occupations, and shall treat the Russian troops with confidence.

Fourth—The railroad telegraphs are left to the protection of the people, who will be held responsible in case they are injured.

The fifth heading warns the people not to obey the threats of the Mounted Bandits, who are the curse of Manchuria, but to assist the troops to exterminate them. If they do not assist in this they also will be treated as robbers.

Sixth—If the people antagonise the troops, or show them hatred, they will be exterminated without mercy. The Government is taking steps, in any event, to protect its interests.

The proclamation makes an earnest appeal for the sympathy of the people in the present crisis, when, it says, "Russia must put her back to the wall."

Blagovestichensk stands as evidence that "extermination" is no idle threat, but the threat seems scarcely proof of Russia's civilising mission.

Telegrams in the *N. C. D. News* are as follows:—

Tokio, 25th March.—Yokota notified the Japanese representative on the 24th instant that the resolution for the opening of Yong-Amphur on 1st April to be announced has been sanctioned by the Emperor.

Japan has demanded permission to catch fish on the coasts of Phongan, Hoanghai, and Kanguon provinces for military supplies.

The *Tokio Mainichi*, which published a defamatory article in favour of the *Nirotsu* *Shimbun*, has been prosecuted.

In reference to the parliamentary papers laid on the table of the House, the enlightened private sections of members are amazed at the striking moderation of the Japanese proposals. But for the final decision of the Japanese Government, there would have been general disappointment. The Government, it is felt, were altogether too patient, and if a final conclusion had been come to on the terms Japan offered, it would have been more ruinous than war.

Admiral Baron Yamamoto, Minister of the Navy, made a speech in the House of Representatives this afternoon on the naval movements and naval activity since October last, which, he said, had accompanied perfectly the diplomatic developments. The Navy, he said, had still a hard task to undergo to accomplish the end desired. Baron Yamamoto was loudly cheered, and a most cordial vote of thanks to the Navy was unanimously adopted.

According to news received at Sasebo, the damaged war-ships at Port Arthur are being hurriedly repaired. It is stated that the necessary resources for repairing are not yet exhausted though there is reason to believe that considerable difficulty is being experienced.

Statements made by Russian prisoners at Sasebo are in direct contradiction to the reports that have been current of late to the effect that Port Arthur is on the verge of famine. On the contrary, according to these prisoners there is an abundant supply of provisions of all kinds in the stronghold. There is a supply of flour and biscuits alone sufficient to last for at least another month.

Japanese and Chinese in San Francisco, Seattle, and Vancouver, had contributed ¥470,000 to the Japanese War Fund, up to the 25th ult.

The steamer *Exton Hall* was taken from Port Arthur to Chefoo by a Danish pilot, who has resided at Port Arthur for six years, and two Norwegian sailors. Above her maindeck she was practically a wreck, her Russian guard having broken and destroyed her fittings and furniture in the most merciless manner.

The U.S. Government is demanding heavy demurrage from Russia for the detention of the steamer *Pleudes* at Port Arthur.

Messrs. Krupp, the gun-makers of Essen, have presented ¥2,000 to be divided between the Army and Navy officers' relief fund and the Red Cross Society of Japan.

The Russian Naval Ministry has established Prize Courts, which will be located at Sebastopol, Libau, Vladivostok, and Port Arthur.

The French East Asiatic Co.'s steamer *Amur* is to take away the Russian refugees from Shanghai to-day. She expected to leave Shanghai to-day.

A Peking dispatch states that the Japanese Minister, Mr. Uchida, has informed the Waiwupu that his Government is not satisfied at the way the dismantling of the *Mandjour* in Shanghai has been conducted. In other words, it is complained that only the breech-blocks of the big guns and the ammunition have been so far taken out of the vessel, while other most important parts of the machinery, etc., on board have not been touched. Under the circumstances therefore the Japanese Government do not consider that the *Mandjour* has been actually made harmless.

Important military appointments, says the *Japan Times*, have been announced as follows:—Lieut.-Gen. Baron Yamaguchi, Commander-in-Chief of the 5th Army Division, promoted to be General and appointed a Councillor of War; Lieut.-Gen. Terachi, Minister of War to be additionally the Inspector-General of Military Education; and Lieut.-Gen. Uyeda, Chief of the Staff of the Inspector-General of Military Education, to be Commander-in-Chief of the Fifth Army Division in succession to Baron Yamaguchi.

Under "Latest News," the *Echo de Chine* says that it is announced from Newchwang that a Japanese detachment had landed at the mouth of the river, made a reconnaissance, and promptly re-embarked.—The same paper says that it can affirm loudly that, contrary to the assertions of the English and Chinese papers, there is not a single Russian soldier on the right bank of the river Liao, that is, in the portion of Manchurian territory evacuated in October 1903 by the Russians. We gather from this that wherever the Russians have evacuated, there are no Russians.

MERCANTILE BANK DIVIDEND.

Mr. E. A. Ormiston, local manager of the Mercantile Bank, Ltd., writes us under to-day's date as follows:—"I have received a telegram from our London office that the Directors will recommend at the forthcoming yearly meeting of shareholders, a dividend of 5% on 'A' shares, 5% on 'B' shares, that £5,000 be placed to Reserve, which will then stand at £80,000, and that £14,500 be carried forward to next account."

TRADE INTERESTS.

CHINA AND AUSTRALIA.

With a view to developing trade between China and the Commonwealth of Australia trade commissioners have, for some time past, been deputed to visit the Far East from New South Wales. Upon the death of Mr. E. Whately, who was appointed in 1901, Mr. J. B. Sutor took over the duties and since the close of last summer has been actively engaged in the Far East. The Hongkong Odd Volumes Society was fortunate enough to obtain from him a promise to lecture in Hongkong, and when last evening Mr. Sutor addressed a gathering at St. Andrew's Hall, on "Australia and the British Empire," the Hon. Gershom Stewart, who presided, wished him every success in his work of increasing the trade between China and the Commonwealth.

The lecturer then proceeded to entertain his audience with a most interesting address on Australia and the British Empire, pointing out the possibilities that were open to the Commonwealth, where there was room for four times the number of people that were at present there, and where during the next few months millions of acres of land would be available. They did not, in fact, realise the worth of the Australian States, figures regarding which the lecturer proceeded to quote. He spiced his address with many amusing incidents and at the close the audience showed their appreciation of his remarks by according him a hearty vote of thanks, a similar honour being paid the Chairman.

THE LATE MR. W. ALLAN.

One of Shanghai's well-known residents in the person of Mr. Wm. A. Allan passed away this morning at the General Hospital, says the *Mercury* of 23rd inst. Deceased came out to the East about 15 years ago as chief officer of the *Fathian*, one of the Canton-Macao boats. After trading on the coast in various ships until 12 years ago, he entered the service of the C.N. Co. where he had up to the time of his death acted as pilot on the Ningpo run; for many years he was chief pilot of the C.N. s.s. *Pekin*. Deceased was well known on the China coast, and was well liked by all with whom he came into contact. He was a leading member of the St. Andrew's Society and was a Mason. The deceased had been suffering for the past three months from appendicitis and during that time he underwent four operations. All the flags on Messrs. Butterfield and Swire's steamers and at the M. M. O. Association were half masted to-day as a mark of respect for the deceased. He leaves a widow and six children to mourn his loss.
